- Endurance – educate each other and respect each other – makes us trust in each other – Schools are THE platform
 - Less but better prepared professionals meeting family and child – professionals rivalizing not accepted
 - Courage – try new work models
 - True use of knowledge in the field of collaboration – It has it's own discipline!
 - Today's resources are enough – need to use them differently
 - Information sharing – might try new legislation?!
-

We will succeed, because:

- Of joint leadership from the highest level – keep hangi'n on!
- Inspiration from Scottish contacts!
- We're a small, handy little county
- We have good collaboration with political level – they're in front!
- We remember and cherish the "Wow-feeling" from local workshops – hits sparks! Bottom-up perspective
