Analytic study

Intersectoral team of
professionals

On-line survey, interview

Intersectoral team of professionals - 15 members

Intersectoral team of experts

Aim of setting up the team:

- ❖ to **improve the efficiency** of the signal system (all four levels),
- ❖ to **extend the methods** of operating the recognition and signal system,
- ❖ to collect further methods to help the **rationalization of operation process and motivation**,
- ❖ to collect good practices and bring them to practical operation on system level.

Intersectoral team of experts

Method:

- ❖ dicussion, debate of experts,

Tasks:

- ❖ making **summary documents** between and end of sessions,
- ❖ **defining problems and dilemmas** of the system from the point of their sector and specificly their profession,
- ❖ **giving opinion on sector-free recommendation and training material** of the advisors of signal system – working in Family Catering and Child Protection Centres, as coordinators of the system – before finalizing it.

Intersectoral team of experts

Key issue:

- ❖ The **necessity of cooperation** to make the *Recognition and signal system of dangerous situation* work properly and even **more effectively**.

Attaching to the key issue debate were held about the following topics:

1. **responsibility,**
2. **borders of competences,**
3. **way and effectiveness of communication.**

Each expert reflected to these topics from the point of view of their own specialist area, sector or profession.

Results and sustainability

- ❖ We managed to **realise more effective raise of attention to the duty** of the members of the system and helped to **understand the whole process better**.
- ❖ Experts of the team **could express the claims of the members of the system**, which resulted **better understanding** of each other.
- ❖ Experts of the team **became committed** to operate the *Recognition and signal system of dangerous situations*, as they became real **ambassadors** of its importance.

Results and sustainability

- ❖ The results of the work were built in the **training material for the coordinators** of the system.
- ❖ Representation at **conferencies** of the connected sectors – presentations, workshops and introduction of our film:
 - National Conference of Public Education,
 - Social conferences national and regional level,
 - Project Conference of Ministry of Justice,
 - Jubilee Conference of Hungarian Health Visitors,
 - National Conference of Pediatricians.

Thank you for your kind attention!
