Support for children with disabilities

Human rights 📌 Convention on the Rights of Persons with Disabilities

📌 Individual Project

«Pensami adulto » M.Tortello

(Art.19 – CRPD «...have the opportunity to choose their place of residence and where and with whom they live on an equal basis with others...»)

We started from:

- «institutional» loneliness of families
- lack of tailored services and support
- no possibility of choice
- hospitalizations and institutionalisation
- no decisions shared with families

Solution:

- everyone has the right to have a family
- empowerment and active participation
- social awareness and awareness of their role
- train with institutions and service operators

«the experience of Mary as a child»

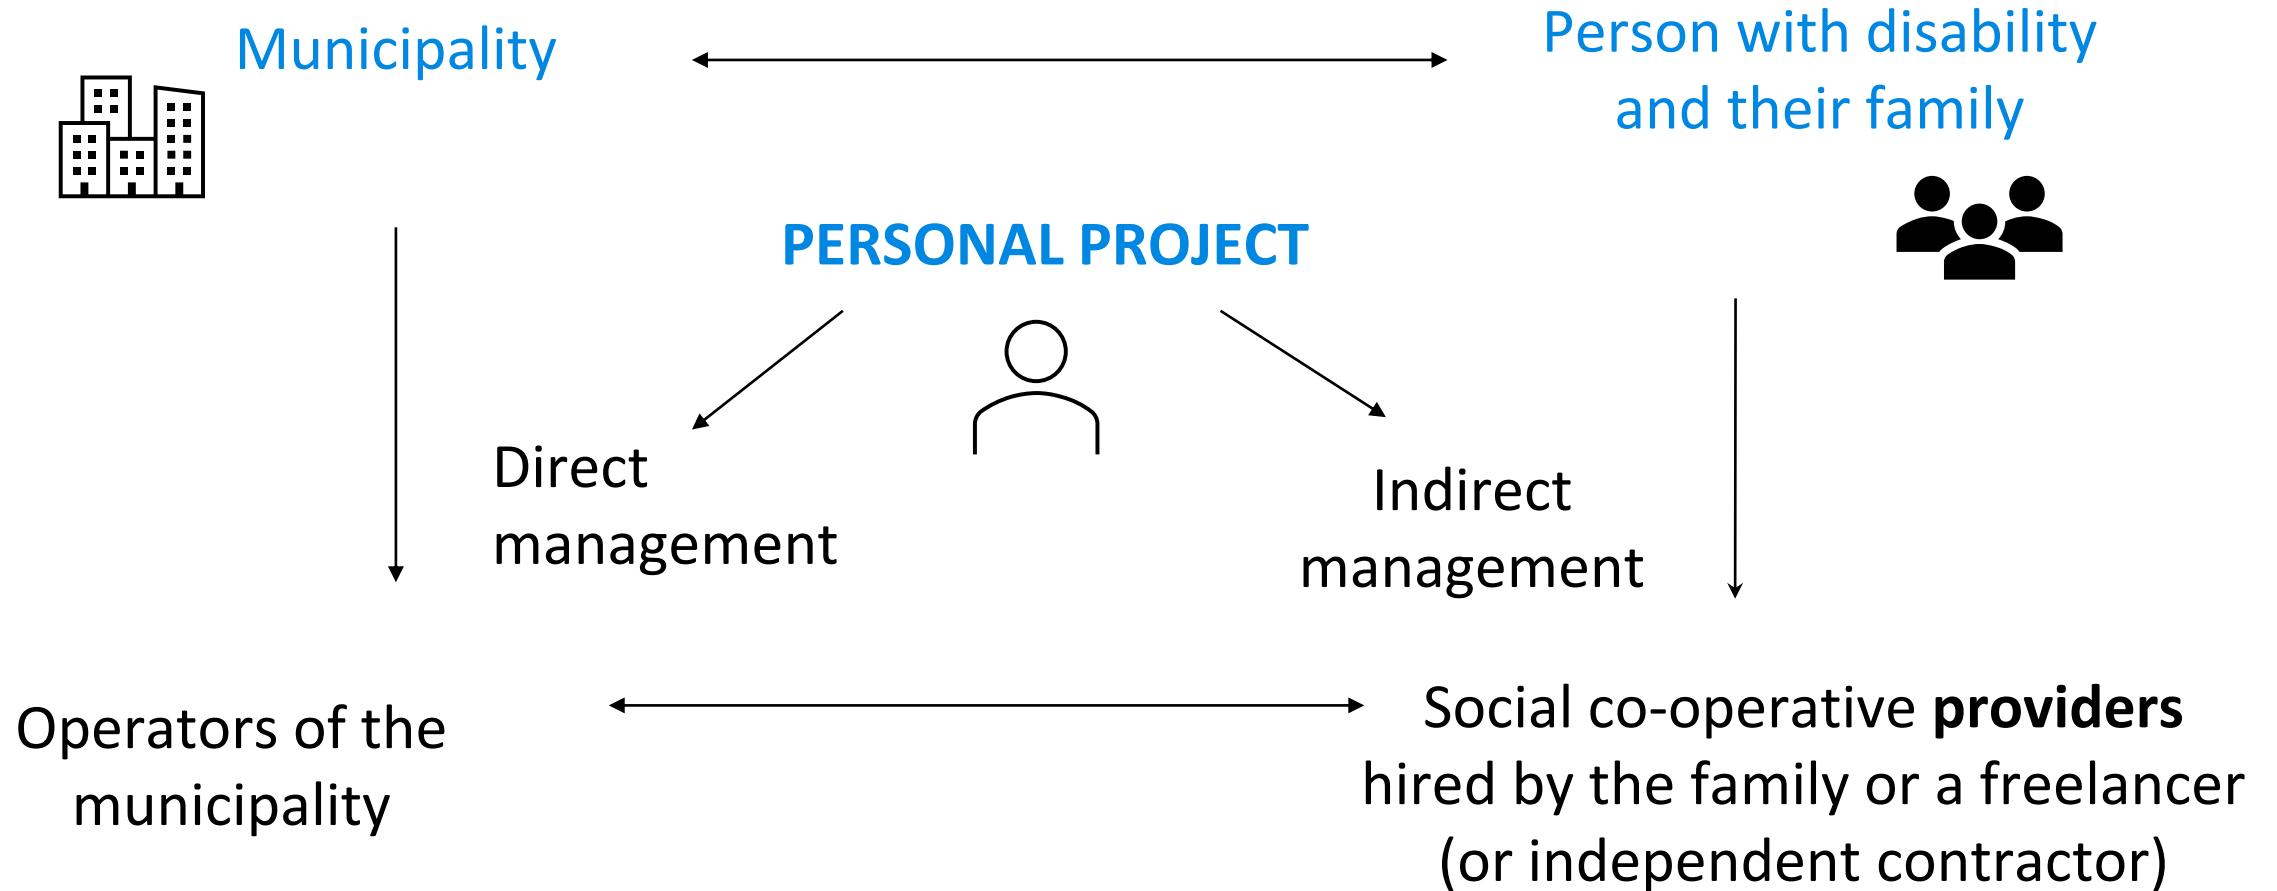

He attended and completed the school with the necessary supports.....

...now thanks to the support of his families and personalized plan operators he is preparing to live an independent life in his apartment

Personalised Inclusion Plan

Interventions based personalised plan

Needs assessment

- Health Analysis (health report)
- Family Situation Analysis (social report)
- Track of the project, identifying intervention, goals, results and business plan in order to make it happen

Interventions:

- Education service
- Personal support and/or home care
- Reception at authorised day centers, limited to the payment of the social quota
- Stay for no more 30 days a year in authorised facilities
- Sports and socialisation activities
