

ACE

Together, let's pioneer homecare innovation in the North Sea region

ACE

The ACE project is strengthening the North Sea region's homecare ecosystem, connecting care providers and companies to foster safety and independence for care users with improved services. **This collaboration of 14 partner organisations from six European countries (Sweden, the Netherlands, Denmark, Belgium, France, and Germany)** is defining and expediting all innovative technologies that support older adults at home, while also supporting care service providers in adapting to emerging technologies and new ways of working.

Total budget:
€4.36 million

Total budget from Interreg North Sea Region:
€2.6 million of ERDF

Project duration:
2023 - 2026
