OUR MEMBERS

The European Social Network (ESN) is the independent network for local public social services in Europe.

ESN brings together people who plan, manage and deliver public social services, together with those in regulatory and research organisations. We support the development of effective social policy and social care practice through the exchange of knowledge and experience.

As of 2017 the European Social Network (ESN) has nearly member organisations in over 33 European countries. Members of the network are public organisations comprising:

- National associations of directors of social services
- National, regional and local departments of social welfare (i.e. ministries, regions, provinces, counties and municipalities)
- Universities or national schools specialising in social policy
- Research institutes and other public organisations responsible for the improvement of social services
- Public funding and regulatory agencies

Associations of directors of social directors (or equivalent) have a special role within the network as Trustees: they form the Board of ESN and are responsible for its overall strategy and development.
