Intergenerational volunteering for civic engagement

Agency for Health and Social Services no. 3
«Upper Friuli»
Areas characterized by low population density and high levels of population and territorial's dispersion represent a huge challenge for social services, responsible for wellbeing and social care.

Promoting the use of new technologies, accessible, visible and quickly usable as an instrument for active participation of citizen and in order to limit the digital divide.

Giving space to voluntary associations of Upper Friuli that most collaborate with public services in order to introduce their activity and projects: Tag Generation.
