

-ALL AGE HUB-	
<u>Organisation(s):</u>	Göteborgsregionens kommunalförbund (GR) / Gothenburg region's municipal association
<u>Country:</u>	Sweden
<u>Website:</u>	http://www.allagehub.se/
<u>Contact:</u>	policy@esn-eu.org
<u>Target group:</u>	All people that could make use of welfare technologies.
<u>Summary:</u>	<p>AllAgeHub is developing a user-centric testbed in close collaboration with the academia, the civil society, the industry and the public sector.</p> <p>In collaboration with actors from academia, civil society, business and the public sector, AllAgeHub develops a user-driven test bed, in order to stimulate the use of welfare technology that meets the users' real needs.</p> <p>AllAgeHub is an initiative of the thirteen GR municipalities Ale, Alingsås, Gothenburg, Härryda, Kungälv, Kungsbacka, Lerum, Lilla Edet, Mölndal, Partille, Stenungsund, Tjörn and Öckerö with the Gothenburg region's municipal association, GR, as project owners.</p> <p>The project period is May 2020 - June 2023.</p>
<u>Objectives:</u>	<ul style="list-style-type: none"> • The aim is to promote the implementation of assistive and welfare technologies that meet the actual needs of end users by involving them in the development phase of said products. • Establish a collaborative platform for research, development and innovation that promotes accessible living environments and welfare technology services so that people, regardless of functional variation and age, can live independent and secure lives.

If

you would like to find out more about how to apply this practice in your own organisation, why not apply for the ESN peer learning programme? For more information, contact ESN membership and operations officer, Tanja Sheikhi, at Tanja.sheikhi@esn-eu.org
